STI Computer Services, Inc. Moves into New Corporate Headquarters

Eagleville, PA – STI Computer Services, Inc. announces the completion of a new Corporate Headquarters located at 2700 Van Buren Avenue in Eagleville, PA. Located one block from their former location at 2550 Eisenhower Avenue, this new facility was designed to accommodate the steady growth STI has experienced over the past two decades.

30,000 square feet of space is now available to STI's growing number of employees while modern training facilities were added to better serve the medical office clients served in the Mid-Atlantic region who visit onsite to attend on-going software training sessions.

[More]

STI is proud to promote many of the "Green" features of this new facility, including modern computer-monitored climate control and lighting systems which reduce the amount of energy required for normal operations. To ensure uninterrupted service for our clients, a generator has been installed to power all mission critical operations.

"I am pleased to announce the completion of this long-anticipated move to our new headquarters. This modern facility will assist STI in meeting our future goals and demonstrates our commitment to serve the needs of our clients for years to come."

Ted Itzkowitz

President

STI Computer Services, Inc.

Open House – October 10th, 2008

To celebrate the move to our new headquarters, STI is extending an invitation to attend an **open house on Friday October 10th 2008 from 4:00 – 7:00pm** to showcase the many enhancements of this new building. Participants will enjoy a complete building tour along with hamburgers, hot dogs, and BBQ chicken. All those interested in attending this Open House can register by calling Rob Farrow at 800-487-9135 x1159 or e-mail rfarrow@sticomputer.com.
