Medical Office Billiing

"The Center for Medicare Services (CMS) has reported that it rejects 26% of the claims it receives. While that number is astonishing, more astonishing is the fact that 40% of those rejected claims are never resubmitted. Using Medicare's statistics, the lost revenue per physician is about 10%. On a per physician basis, this ranges from approximately $25,000 to over $50,000". [1]

Electronic billing with ChartMaker® Go provides practice benefits to avoid lost revenue and can pay for itself with improved electronic billing procedures and collections. ChartMaker® Go can bill electronically for most Medicare, Medicaid and Commercial Insurance office procedures.
